*'Understanding volcanoes and society: the key for risk mitigation'*

## **Intercommunal regulatory plan Villarrica Pucón**

**María Elena Harcha<sup>1</sup>**

<sup>1</sup>Seremi Minvu Región de La Araucanía

Key words: Villarrica Pucón

Evaluating both local circumstances and land-use planning are crucial aspects in order to plan, design and regularize urbanization, where fields such as tourism, production and trade, among others, command human settlements often without appropriate hazards appraisals. Here I present three different approaches based on a regulated urban planning in the Villarrica – Pucón area, southern Chil, which is adjacent to Villarrica volcano, the most active one in Chile.
